

Accessories for Actuated Valves

Type 08002 - Air Control Sets

Air Control sets

Diaphragm pressure regulator with secondary ventilation,
Installation position vertical - drain plug at bottom,
Inlet pressure maximal 16.0 bar,
filter element in Polyethylen (sintered), pore diameter in filter element 5µm,
port connections G1/4, body zinc-diecasting, with NBR seal,
tank capacity maximal 0.35 cm³ condensate, condensate draining manuel,
Ambient temperature: -10°C / 14°F up to +60°C / 140°F,
including pressure gauge (0 - 10.0 bar)

Part No. 08002.021K.0000

condensate tank Polycarbonat, control range 0.5 - 10.0 bar

Part No. 08002.021M.0000

condensate tank in metal, control range 0,5 - 16.0 bar

Condensate-tank
Polycarbonat

Condensate-tank
metal

Adapter 1/4" NPT female thread - G1/4 male thread

Part No. 29001.0004.0302

material brass (CW614N / ASTM B 283 UNS C38500)

Part No. 29001.0004.0783

material stainless steel (1.4404 / ASTM 316L))
